DOWIEITES REFUSED TO VACATE CHURCH

Second Baptist Building, Purchased by S. A. Bemis, Still Houses Mr. and Mrs. Hail.

L. C. Hall and Mrs. Mary McGee Hall, joint pastors of the local Dewielte Church, which has been holding services in the old Second Baptist Church at Beaumont and Locust streets, refused to vacate the property yesterday afternoon, when the edifice was sold under the hammer to S. A. Bemis, vice president of the Bemis Brothers Bugging Company.

After an interview between the purchaser, accompanied by prominent members of the Second Baptist congregation and Mrs. Kall, in which the latter announced her positive intention to remain, police were called in to "protect the property" and "prevent disturbance" Officers Davis and Mechel of the Eighth District the church from 5 o'clock in the afternoon until 10 o'clock at night.

Mr. Bemis was advised, after he had se cured the title deeds to the church, that the Halls had to legal right to remain. He went to the church with F. H. Laddington, T. J. McLemore and D. A. Jamison, He T. J. McLemore and D. A. Jamison. He stated that he hoped Mr. and Mrs. Hall would leave at once, and that if they did not he should be forced to thvoke the law's aid to eject them. Mrs. Hall pleaded for more time. She contended that her congre-gation had the privilege to post a bond within a certain time as curnest money to yet redeem the mortgage. She also said that she could not be forced out without notice of ejectment. Mr. and Mrs. Hall have been living in a tower room of the "I understand that the Halls have no

church.

"I understand that the Halls have no legal status in the matter," said Mr. Bemis later at his home. No. 1214 Morgan street.
"I own the church as a private citizen. In the past the Second Espitst congregation have treated the Howle people with the greatest consideration. I hope that the figurest consideration. I hope that the figurest consideration is to be the Halls will look at the matter reasonably and vacate without causing trouble."

Mr. Hall said that he had announced service in the church for to-night, and that he would endeavor to hold it. Mr. Bemis said that he had not decided whether to prevent this.

The property sold for \$42.760. It was first bought by the Holiness Missionary Union for \$50.00. Of this amount \$10.00 was paid down and a deed of trust given to secure the remainder. Default on two payments on the deed has been made, forcing the sale. The Dowie Church later assumed the deed of trust and took possession of the church under the agreement that the Second Baptist congregation was to hold morning services therein and the Dowle Church night services. One reason for their refusal to move, say the Halls, is that they are waiting to hear from Alexander Dowle, High Priest of Dowleism, in the matter.

NEW YORK BANK STATEMENT.

Increase in Loans Unchecked-Treasury Purchase.

New York, Nov. 2.—The statement of the associated banks for the week ending to-day were: Loans, \$891,922,900, increase, \$7,-32,300; deposits, \$808,962,400, increase, \$13,700; legal tenders, \$71,334,700, increase, \$1,140,300; specie, \$178,962,700, decrease, \$1,479,190, Reserves, \$230,928,400, decrease, \$1,238,800; reserve required, \$139,515,600, increase, \$81,575, surplus, \$10,482,800, decrease, \$4,200,075.

The Financier says:

Ho. 52.50. decrease, \$4.20.00.

this nor mercantile borrowings will octhis increase, it seems most likely due
exchange operations and to negotinmas upon security shy syndicates.

Treasury Statement.

ST. LOUIS STOCKS BOOMED.

Lively Advance in United Railways and St. Louis Transit.

Louisville, Ky., Nov. 2.—The possibility of the acquisition of the Suburban caused

a lively boom in St. Louis traction stocks on the local market to-day, where they are great favorites. Under spirited buying United Railways preferred opened at 84% and sold as high as 86%. St. Louis Transit common stock sold as high as 30, 100 shares changing hands at that figure. In both cases these are record-brenking figures.

GURES DRUNKARDS SECRETLY.

Cure Known for Drunkenness Sent to All Who Send Name and Address.

It Can Be Put Secretly Into Food or Coffee and Quickly Cures the Drink Habit.

Few men become drunkards from choice or inclination—all welcome release from the awful habit. Golden Specific will cure the worst habitual drunkard. This wonderful remedy can be administrated by

MR. AND MRS. HARRY BURNSIDE

MR. AND MRS. HARRY BURNSIDE.

cure is sure, without harmful results to the
system. Many a home is now happy by
the use of Gelden Specific. "My husband
got into a habit of taking a drink with the
boys on the way home," says Mrs. Harry
Burnside. "After a while he came home
drunk frequently. He soon lost his position
and I had to make a living for both of us
and the little children. At times he tried to
sober up, but the habit was too strong for
him and then he would drink harder than
ever. I heard of Golden Specific and sent
for a free package. The treatment cured
him. I put it in his coffee and he never
knew it at all. He regained his old position
and now we are happy in our little home
again. I hope you will send Golden Specific
to every woman that has suffered as I have,
and save her loved ones from the drunkard's grave."

Send your name and address to Dr. I. W.

STOCK MARKET SPOTTY. BUT CLOSING WAS FIRM.

UNION PACIFIC WAS PROMI-NENT IN RALLY.

General Movement Was Narrow -Speculation Irregular-Week's Deals Small.

New York, Nov. 2.-The stock market was spotty and irregular to-day, but made a firm closing at about the best, generally after the appearance of the weak bank statement. Very large orders were placed in various stocks to effect the rally. The selling came after the bank statement had been considered and the early gains had been pretty well wiped out. Union Pacific was most prominent in the rally, and the market went up to 1834 through many offerings of several thousand share blocks each. The Southern Railway stocks, Baltimore and Ohio, Amalgamated Copper and United States Steel, preferred, also railied strongly, the last named rising a point over last night. St. Paul was notably heavy and railled but feebly, dropping back to the lowest of the day just at the close. General Movement Narrow.

General Movement Narrow.

The general movement was narrow, but some less important stocks moved widely. People's Gas was sharply depressed. There was strength in Illinois Central and the St. Louis and San Francisco stocks. It was hoped that the gold exports, coming late in the week, would not figure for their full amount in the bank statement under the average system. But the cash decrease proved to be a million and a half in excess of the estimates. The loan item showed the process of loan expansion by the banks still heavy in force. The London money market showed relief by redisbursement of November dividends and sterling at Paris recovered a fraction. Further gold exports from New York next week are counted as a from New Jork next week are counted as a practical certainty. The strong rally in Un-ion Pacific at the close was accompanied by rumors that a statement of the terms of the Northern Pacific settlement was a possibility before trading was resumed on Monday.

Prices Drift Uncertainty.

Prices Drift Uncertainty.

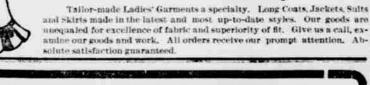

The prices of stocks have drifted uncertainty during the whole of the past week, with no consistent movement defined at any time. The conflicting eddies in the pool of speculation have been due to the movements of individual stocks under the influence of special causes. The impression among market observers has been one of duliness near to the record low level. For the first time this year the weekly transactions in stocks have fallen below the aggregate transactions for the corresponding period last year during one of the weeks of October; yet a survey of the transactions of the whole month reveals an aggregate of 14,62,147 shares, compared with a total of 19,29,355 for October of last year, which was in turn the largest aggregate of transactions for any October in the previous tenyears. Sales of bonds for the October instended amounted to a par value of 34,254,596, compared with \$12,257,590 in October of last year, and \$3,76,590 in October of 1888.

Duliness Due to Contrast.

In a free package. The treatment cured him. I put it in his coffee and he never knew it at all. He regained his old position and now we are happy in our little home again. I hope you will send Golden Specific to every woman that has suffered as I have, and save her loved ones from the drunkard's grave."

Sond your name and address to Dr. J. W. Haines, 2075 Glenn Building, Cincinnati, Ohio, and he will mail you a free package of Golden Specific in a plain wrapper, accompanied by full directions how to use it. Enough of the remedy is sent in each free package to give you an opportunity to witness its marvelous effect on those who are slaves to drink.

Do not delay. You cannot tell what may happen to the man who drinks, and you would never forgive yourself for waiting. Duliness Due to Contrast.

J. H. TIEMEYER,

514 FRANKLIN AVE.

this normally a period of duliness in specualities. The fostering cause of speculative activity is the accumulation of idle reserves in the banks, which are employed by the average speculator in the form of loans on call. It is found to be the invariable rule that demand for money for mercantile and industrial purposes works a contraction of the supply available for speculative purposes on call, no matter what the ruling interest rate for call loans may amount to. Thus, in December, 1899. may amount to. Thus, in December, 1829, when the war in the Transvaal broke out, the demand for call loans for speculative commitments on the Stock Exchange ran the rate up to 185 per cent per annum and precipitated a severe panic, but did not check the outgo of gold to London.

Speculation is therefore, naturally timid in times of strong currents in the shifting of money supplies. Opinions continue to vary as to what will be the ultimate directions. of money supplies. Opinions continue to vary as to what will be the ultimate direction of values when speculation issues from its present dormaint and bestating condition. The aggregate requirements of foreign money markets until the turn of the year are still undefined, and the events of the week point to the likelihood that the New York money market will be called upon to met those requirements. The beginning of gold exports in Paris and the advance in the Bank of England discount rate point clearly to that conclusion. The advance in the Bank of England discount rate point clearly to that conclusion. The shillty of foreign markets to command gold from New York, in face of the heavy trade balance in our favor for many months, is now seen to be due to the enormous return of foreign holdings of securities to domestic holders and large borrowings by home capitalists and syndicates during the struggle for control of the Northern Pacific and the organization of the United States Steel Corporation. The prolongation of the Beer War keeps Europe shut off from its customary source of gold supply, while the continued production in this country makes it the most available source of supply.

Foreign Bepression.

Industrial depression in Germany and in Russia have involved heavy losses, French capital having been heavily committed in Russia. This is held to account for the calling home of French capital. There have

en suggestions also that foreign capitalbeen suggestions also that foreign capitalists have not entirely approved of the uses to which their money was put by the borrowing capitalists and syndicates here. The depression abread is already reacted in a degree in the decline in our exports and in the increased competition of surplus production and lower prices, and the question obtains how much further this tendency may go. Attention has been attracted this week by reports of retirements from business of wheat exporters on account of disappointing foreign demand and collapsed ship carrying rates, so that speculative contracts, both in wheat and ocean freights have involved losses. The export of from products has avowedly fallen to insignificant propor-

cisco, altimately to New York.

Gold Shipments Balance.

The weeks' shipment of \$2,80,000 to Paris is exactly counterbalanced by gold received in New York or in transit from Australia. The renewal of bond purchases by the Secretary of the Trensury only partly relieved the apprehension of the disturbing effect upon the money market of the unwieldly Government surplus. Reports of the domestic trade situation continue favorable, in the volume of bank clearings throughout this country, the earnings and amount of traffic of railroads and the activity in the iron trade. But opinion is not well defined as to whether or not the country's prosperous conditions and prospects are not overcapitalized on the basis of the large financial organizations of the past year, notably the "Burlington" deal, the United States Sieel corporation and the generally high level of prices for securities still prevailing. Railroad bonds have been quite active during the week with points of notable strength here and there. United States &s advanced \(\frac{1}{2} \), the first \(\frac{1}{2} \) and the new 4s 1 per cent above the closing call of last week.
